SUMMARY

Motivated Computer Science student with strong foundation in web development and artificial intelligence. Skilled in building full-stack applications using Flask and React, with hands-on experience in AI-powered systems such as resume generators and interview trainers. Passionate about problem-solving, clean code practices, and developing user-centric solutions.

EXPERIENCE

AI Developer Intern

TechNova Solutions

Jan 2025 – Mar 2025 | Remote

- Developed an AI-based resume generator using Flask and NLP models
- Integrated chatbot functionality for interview preparation using Ollama
- Improved system performance by optimizing backend API responses
- Collaborated with team to design user-friendly dashboard UI

EDUCATION

B.Tech in Computer Science

MIT College of Engineering, Pune —

SKILLS

Languages: Python, Java, JavaScript

Frameworks: Flask, React

Tools: Git, VS Code, Postman

Databases: SQLite, MySQL

PROJECTS

- AI Resume Generator and Interview Trainer – Built a full-stack system to generate resumes and simulate interviews using NLP
- SmartHire Dashboard – Developed user dashboard for managing resumes with preview and download features
- GPS-Based Attendance System – Created real-time tracking system for field staff using geolocation

ADDITIONAL INFORMATION

Achievements:

Winner of college-level hackathon for AI-based project Completed 200+ coding problems on LeetCode
